

Picnic Benches

The P and F were pleased to acquire 5 aluminium picnic benches for the students of Xavier to enjoy. One set was made available via residual funds from a Matt Keogh grant and the rest were purchased from funds made available from the P and F Committee. From all reports both students and parents have found these sets to be a valuable, durable outdoor seating option for more comfortable and convenient lunch periods or other outdoor activities which improves the everyday experience for all students. The P and F would like to thank all parents who support the committee and its fundraising events which made these purchases possible.

Soccer Goals

The P and F Committee are delighted to have been able to support Miss Aquino's application at the previous meeting for new portable soccer goals to be used at interschool training sessions. The new goals are set to revolutionize the way in which the students train and play soccer. They are also much safer reducing the risk of player injuries. With these innovative features, students will be able to make the most of their training sessions and have a more enjoyable and productive experience whilst also presenting and promoting a strong professional standard in front of other schools. Thank you to Miss Aquino for discovering this opportunity to improve the sporting experiences for students at Xavier. Thanks also to those parents at the meeting who supported Miss Aquino's application.
